Emmanuel Christian Center was granted an exemption from closed captioning our television program. We are requesting that exemption be upheld.

Emmanuel Christian Center's television broadcasts are created as a public service to our community. The only television market that we broadcast into is Minneapolis/St. Paul, which is where we are located. We do not ask our television audience for donations or sell advertising. We pay for the production costs from the church's general operating budget. If we were forced to closed caption, the financial burden would force us to discontinue our broadcast.

Thank you for your consideration in this matter.

Tim Denyes
